Workforce Info

Slana

Slana is an unincorporated CDP located along the Nabesna Road. It is at the junction of the Slana and Copper Rivers, about 55 miles southwest of Tok. Slana is part of the Valdez-Cordova Census Area.

- ◆ The estimated population for 2008 was 107, a loss of about 17 since the 2000 Census.
- ◆ About 37 percent of the resident population 16+ years old worked in 2008.
- ◆ State Government and Local Government were the main industries in 2008, each employing 22 percent of the area's workers.

Please note: There is an important distinction between the local/regional employment data and our "standard" employment series. Most of these data reflect totals for area residents only. Total worker counts may be lower than expected in areas with a large number of nonresident workers. The Alaska Permanent Fund dividend file is used to determine the worker's geographic residence. Only Alaska residents (as defined by PFD application) are included in these totals. Also note that federal employees, the military, and the self-employed are not included in these data.
